
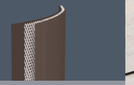
HYDROJET SYSTEM

Relax and unwind in your own backyard! The Hydro:Jet nozzles provide a soothing jetstream of water, in combination with a calming flow of air bubbles that release from the bottom of the hot tub.

CONSTRUCTION FEATURES

MaxHold® fabric internal beams prevent stretching and air loss, ensuring the hot tub consistently maintains its shape.

- Stretch-resistant fabric maintains its shape, even with repeated inflation & deflation
- Increased air pressure retention for relaxing comfort
- Tritech puncture-resistant walls



MULTI-FUNCTION PUMP

APP-CONTROLLED PUMP

The Bestway® Smart App puts control at your fingertips. Connect your pump to the app and you can control your hydrojet and massage bubbles, run the filtration system, and set a heating or filtration timer from wherever you are.

Pump Functions:
- Heats water
- Heats water to 40°C
- Controls massage & filtration systems
- Sets power-saving timer

Easy-to-reach control panel

Built-in cup holders

ADDITIONAL FEATURES

ENERGYSENSE® INSULATION

PATENT-PENDING

The innovative EnergySense® multi-layer insulated cover helps retain heat and air loss, meaning this hot tub uses as much as 40% more energy-efficient than similar inflatable hot tubs.

FREEZE SHIELD® WEATHER PROTECTION

Freeze Shield® technology allows you to enjoy your outdoor temperature to keep the internal system between 5°C and 37°C, preventing freezing and damage to the hot tub.
