Concernant le sol :

- Bien noter que l'on peut monter un abri Grosfillex uniquement sur un sol parfaitement plan et jamais directement sur de la terre ou sur de la pelouse.

- **Il est vivement préconisé d'installer l'abri sur une dalle béton d'au moins 10 cm d'épaisseur.**

Regarding the ground:

- Please note that you can only assemble a Grosfillex shed on completely flat ground and never directly on the ground or on a lawn. Only erect on ground that is stable and packed down.

- **It is strongly recommended to put up the shed on a concrete foundation at least 10 cm thick.**

Weitere Hinweise zum Beschaffenheit des Untergrundes:

- Um ein einwandfreies Ergebnis Ihrer Montage, insbesondere in Hinsicht auf die Ausbildung der Spaltmaße der Türen, zu erzielen, ist es zwingend erforderlich, dass der Untergrund absolut waagrecht und eben ist.

- **Es wird unbedingt empfohlen, das Gartenhaus auf eine Betonplatte von mindestens 10 cm Dicke zu bauen.**

Terreno:

- Le Home Garden Grosfillex possono essere costruite solo su terreni perfettamente piani e mai direttamente su terra o prato. Il terreno deve essere stabilizzato e calcato.

Voor de ondergrond :

- Let op : een Grosfillex tuinhuis kan slechts op een perfect vlakke ondergrond worden gemonteerd. Plaats het nooit rechtstreeks op de aarde of het grasperk. Een gestabiliseerde en aangestampte ondergrond is vereist.

- **Het wordt sterk aangeraden het tuinhuis te installeren op een betonnen plaat van minstens 10 cm dik.**

Para o chão :

- Lembre-se que só se pode montar um abrigo Grosfillex num chão perfeitamente plano e nunca directamente na terra ou no relvado. Chão estabilizado e compacto.

INFORMATION AND GUARANTEE

Dear Customer,

You have just bought a Grosfillex Garden Home. Congratulations on your choice and thank you for the confidence that you have shown in us. We have been paying special attention to the quality of our products for more than 50 years. The quality of the materials used is subject to rigorous checks and is continuously renewed in order to give you the product that meets your expectations.

INFORMATION

The garden shed that you have just bought was designed to be used privately. It has not therefore been designed under any circumstances for a public event or for the exercise of a commercial activity. Depending on the location and the surface in question, the construction of your garden shed may require a work declaration or a prior request for planning permission. We therefore advise you to contact the relevant local authority to obtain all the necessary information before starting your work. We also advise you to speak to your insurance company as cover for your shed may require adding an endorsement to your household insurance.

GUARANTEE CONDITIONS

Like all products in our range, your garden shed benefits from the Grosfillex warranty as follows : The garden shed and its components are guaranteed against any material or manufacturing fault for 10 years as of the date of purchase which appears on your invoice or till receipt with the exception of 'Sherwood' protective coating with 5 years

warranty applicable to all abnormal colour fading.

Should you wish to make a claim, you must quote the serial number of your Garden House and the reference of the faulty parts and present your purchase documents (invoice, till receipt). This information is quoted in your assembly instructions and on our website (www.grosfillex.com). Therefore please keep your purchase document and your assembly instructions safe.

Should a missing or faulty part covered by the guarantee be replaced, Grosfillex agrees to deliver it to you as soon as possible free of charge. Should a part covered by the guarantee not be available, Grosfillex will replace it with an adaptable part of an identical quality. Should a problem arise with your Garden Home, please contact the Customer Relations Department via our website (www.grosfillex.com) or by post at the following address:

GROSFILLEX S.A.S. - S.A.V. Garden Home
Arbent - 01100 OYONNAX - FRANCE

We will reply to your claim as soon as possible.

INSTRUCTIONS FOR USE

The small sheds (up to 5 m2) can be built on and fixed to a gravel foundation or concrete corner blocks. For sheds with a surface area greater than 5 m2, we systematically recommend first constructing a concrete foundation on which your shed must be built and fixed. Fixing your shed on its support must be carried out using the fastening accessories supplied to you. Finally, whatever your shed's dimension and reference number, we recommend that you reinforce the fastenings to its support by using a Grosfillex gripping kit, available with our after-sales service. Details of this can be found below under the reference number 22 954 031.

WARNING

We would like to draw your attention to some strictly inadvisable practices which could present a danger to yourself or others and which are likely to lead to losing the benefit of our guarantee. We therefore strictly advise against: - using a naked flame or heat source inside or in the immediate proximity of your shed. - installing the shed on a site heavily exposed to wind. - directing the doors towards prevailing wind. - failing to fix the shed to the ground, or even fixing it to the ground without a foundation. - spending prolonged periods of time in the shed in case of exposure to extreme heat, particularly infants, young children and elderly people. - installing electrics which weren't carried out by an approved professional electrician. - storing objects in your shed that are sensitive to humidity, condensation or corrosion.

Wij raden u dan ook aan om, alvorens met de werken te starten, bij de gemeente hierover de nodige informatie in te winnen.

GARANTIEBEPALINGEN

Zoals op alle producten uit ons gamma is ook op dit tuinhuis een Grosfillex garantie van toepassing, onder de volgende voorwaarden : Op dit tuinhuis wordt samen met alle onderdelen een garantie van 10 jaar verleend voor materiaal- of fabricagefouten, te rekenen vanaf de aankoopdatum die zich bovenaan de factuur of op het betalingsbewijs bevindt, met uitzondering van de Sherwood coating, waarop 5 jaar garantie wordt verleend op alle abnormale kleurvervagingen.

GEBRUIKSAANWIJZINGEN

De kleine tuinhuisjes (tot 5 m2) kunnen worden opgetrokken en geplaatst op grindtegels of op hoekplaten in beton. Voor tuinhuisjes van meer dan 5 m2 raden wij aan steeds voorafgaandelijk een betoonplaat (fundering) te leggen waarop het tuinhuisje dan opgetrokken en geplaatst kan worden. Het tuinhuisje moet op de ondergrond worden vastgemaakt met behulp van bevestigingsaccessoires die u worden geleverd. En tot slot raden wij u aan om, ongeacht de afmetingen en het type van uw tuinhuisje, de bevestiging op de ondergrond te verstevigen met behulp van de Grosfillex verankeringskit die verkrijgbaar is bij onze klantendienst. U vindt de respectieve gegevens hierna onder referentie 22 954 031.

WAARSCHUWING

Hierbij wijzen wij u op enkele praktijken die we formeel afraden omdat ze zowel voor uzelf als voor anderen gevaarlijk kunnen zijn, en omdat ze ervoor kunnen zorgen dat uw garantie nietig wordt.

Wij raden dan ook formeel af om:

- het tuinhuisje te plaatsen op een locatie waar het heel sterk waait,

- het tuinhuisje te installeren zonder de nodige bevestiging of rechtstreeks op de grond, zonder fundering,
- vooral zuigelingen, jonge kinderen of oudere mensen langere tijd in het tuinhuisje te laten verblijven wanneer de temperatuur er hoog is,
- eender welke elektriciteitsaansluiting te laten uitvoeren door iemand die geen erkend professioneel elektricien is,
- in uw tuinhuisje voorwerpen op te slaan die gevoelig zijn voor vocht, condensatie of corrosie.
