

TRIMAN SORTING LABEL ON PRODUCTS

For the French AGEC regulation, it is mandatory to add the Triman Sorting label to certain products. Please follow the table below to find out which label to add to the supplied product. If this document is added in PIM as a warning label, it means the Triman label must be added to the article. Please add it to the warning label or to the pcs sticker if no warning label is used.

The complete instructions can be found in the Kaemingk Packaging Guidelines.

Please add the below image to:

Product group	Where to display	Which logo
