

Textile –General washing label (textile-General-washing-label-WS01)

This label needs to be according to the EUROPE standard, Regulation 1007/2011/EC and ISO 3758:2012. Please make sure you follow all the instructions and all relevant information is mentioned on the label!

- 1) The label of textile products must be durable, easily legible, visible, accessible and securely attached.
- 2) The sew in label must be made with Tyvek. White with black text. Both sides printing is allowed.
- 3) When an item is for example a set of 3 tablecloths. Then each separate tablecloth must be labelled.
- 4) Make sure that the top part of the label (above item number and address) should have minimum 15mm height in blank.
- 5) The letter/text should have minimum 4.7 Points and the symbol should have minimum 5mm height.
- 6) Compositions must be mentioned in 14 languages!
- 7) When one type of fibers by weight is less than 5% it can be replaced by 'other fibers', except for any elastic fibers (functional) and fur fibers.
Important: only mention full figures and mention them by percentage/weight in descending order.
Example: 92% cotton 4% polyester 4% rayon; we could have '92% cotton 8% other fibers' alternatively: 96% Acetate 4% Spandex; we could not replace 'Spandex' with 'other fibers'
- 8) Wash instruction **only** add it when it is necessary. If added, then this must be mentioned in 14 languages.
- 9) The Triman sorting label cannot be changed due to graphic requirements. The logo as provided is final and must be used (symbol-01_info-triman-textiles_home textiles_horizontal)

Below an example of a washing label, but fill this in according to the fibre composition and washing care of your item! This is an instruction and just an example! Left side is the label, right side is extra information. Do not mention the red text on the left side in your final wash care label.

(1) itemnumber (2) MY-2021 KSD, P.O. Box 7 NL, 7120 AA, Aalten The Netherlands info@ksd-deco.com KSD Fort Dunlop, Fort Parkway Birmingham, B24 9FD United Kingdom (3) Fibre composition 100% Acrylic/Acryl/Acrylique/Acrylic/Aкрил/Akryl/ Akriil/Akryl/Akryyli, etc. (4) Wash care symbols  (5) additional words only if necessary (6) Triman sorting label  quefairedemesdechets.fr	1. Fill in item number 2. Fill in year of manufacturing, e.g. MY-2021 3. Fill in fiber composition (see list underneath this label), in the following 14 languages (in this exact order). If an item contains several fibers, then mention them in full figures by percentage/weight in descending order. English/German/Dutch/French/Spanish/Italian/ Portuguese/Russian/Polish/Croatia (HR)/ Norwegian/Swedish/Finnish/Danish. Please go for the translation of each fibre composition name to below websites: http://www.ginetex.net/labelling/fibre-labelling-comparison/ https://translate.google.nl/ > Croatia (HR) – Russian http://translate.google.cn/ > Croatia (HR) – Russian for Chinese suppliers 4. Please use the correct wash care symbols which are relevant for your item (in this exact order). You can check this on the following link: https://www.ginetex.net/userfiles/files/Table_of_textile_care_symbols_en.pdf 5. Only add it if necessary, then add wash instruction in 14 languages (in exact order as mentioned at point 2)
--	--
