Montage der Nova Pro Seitenreiling
Installing the Nova Pro side railing
Montage sur Nova Pro: Bandeaux latéraux

Montieren der Reling:
Rückwand- und Fronthalter nach vorgegebener Montagezeichnung befestigen.
Relling in den Rückwand- und Fronthalter einrasten. Anschließend die Abdeckhülsen nach vorne schieben.

Neigungsfrontverstellung:

To install the railing:
Fasten back and front railing clips as shown on the assembly drawing. Snap the railing into the back and front railing clips. To complete, slide the cover caps forward.

To adjust the tilt of the front panel:

Adjust the tilt by turning screw **1** with a Pozidrive No.2

Réglage d'inclaison de la facade:

Dévisser ou revisser la vis **1** avec un tournevis Pozidrive N.2.
